Mass Time Changes

Our Sunday morning 8 a.m. Mass time and Faith Formation Program class time currently overlap. Because we are dedicated to providing you and your families with the best faith experience possible we would like to resolve this issue for our families with children in the program. We the clergy and staff, are proposing to move the 8 a.m. Sunday Mass to 7:30 a.m. allowing our families more options to attend Mass on Sunday mornings. Families could attend Mass before class without having to leave Mass early or miss important class time. This allows our 10 a.m. and Noon Mass attendees to remain unaffected as well.

We welcome your comments, thoughts or suggestions.

Proposed Sunday Schedule

7:30 a.m. Mass - English

8:45 – 9:45 Pre-K – 8th grade
Faith Formation Classes

10 a.m. Mass - English

Noon Mass – Spanish

Proposed
changes would begin on

Enhorabuena señoras! Nuestras oraciones están con ustedes en sus esfuerzos futuros.

Child Abuse Prevention Month:

You cannot always predict who will be an abuser

Experience shows that most abuse is committed by someone who has gained the trust of a victim/survivor and his/her family. With child sexual abuse, sixty percent of the time the offender is a family friend, acquaintance, or another trusted adult in the victim/survivor's life. Thirty percent of the time the offender is a family member. Sometimes an offender seems like the nicest person in the world, but this is often part of a process they use called "grooming" in order to gain the trust of the child they wish to abuse and the trust of his/her family.

There are behavioral warning signs of child abusers:

Training and education help adults recognize grooming techniques that are precursors to abuse. Some abusers isolate a potential victim by giving him or her undue attention or lavish gifts. Another common grooming technique is to allow young people to participate in activities which their parents or guardians would not approve, such as watching pornography, drinking alcohol, using drugs, and excessive touching, which includes wrestling and tickling. It is also critical to be wary of age-inappropriate relationships, seen, for example, in the adult who is more comfortable with children than fellow adults.

Mes de la Prevención del Abuso Infantil:

No siempre se puede predecir quién será un abusador. La experiencia demuestra que la mayoría de los abusos son cometidos por alguien que se ha ganado la confianza de una víctima / sobreviviente y su familia. Con el abuso sexual infantil, el sesenta por ciento de las veces el delincuente es un amigo de la familia, un conocido u otro adulto de confianza en la vida de la víctima / sobreviviente. El treinta por ciento de las veces el delincuente es un miembro de la familia. A veces, un delincuente parece ser la persona más amable del mundo, pero esto es a menudo parte de un proceso que utilizan llamado "arreglo personal" para ganarse la confianza del niño que desean abusar y la confianza de su familia.

Hay señales de advertencia de comportamiento de los abusadores de niños: la capacitación y la educación ayudan a los adultos a reconocer las técnicas de aseo que son precursoras del abuso. Algunos abusadores aíslan a una víctima potencial prestándole atención indebida o regalos lujosos. Otra técnica común de aseo es permitir que los jóvenes participen en actividades que sus padres o tutores no aprobarían, como ver pornografía, beber alcohol, consumir drogas y tocar excesivamente, lo que incluye la lucha y las cosquillas. También es crítico desconfíe de las relaciones inapropiadas para su edad, como se ve, por ejemplo, en el adulto que se siente más cómodo con los niños que sus compañeros adultos.
